## What if the Fed doesn't cut interest rates this year?

- Earlier this year, many investors were convinced the U.S. Federal Reserve was on track to reduce interest rates four times by the end of 2024. Back then, it struck me as wishful thinking.

## Don't let interest rates dictate your investment fate

- Today's higher interest rates feel challenging since rates were exceptionally low for an extended amount of time. In the past, markets have performed well during time frames when interest rates were at or above 4%.
